DETAILED ACTION

1. This Office Action is a response to communications dated 08/29/08. Claims 1-2, 4-6, 8-45 and 37 are pending in the application.

Allowable Subject Matter

2. Claims 1-2, 4-6, 8-35 and 37 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record, considered individually or in combination and in view of the Applicants' outstanding response filed 08/29/08, fails to fairly show or suggest the claimed invention, comprising, among other limitations, novel and unobvious limitations of *"determining an allocated bandwidth amount for the stream of the entity based, at least in part, on the unserved bandwidth amount; and updating a reserved bandwidth amount of the stream of the entity, for the current superframe using a weighted average of current requested bandwidth amount, the unserved bandwidth amount, and a previous reserved bandwidth amount of the stream of the entity from the immediate previous superframe,"* structurally and functionally interconnected with other limitations in a manner as recited in claims 1-2, 4-6, 8-23 and 31-35.

The prior art of record, considered individually or in combination and in view of the Applicants' outstanding response filed 08/29/08, fails to fairly show or suggest the claimed invention, considered as a whole, comprising, among other limitations, novel and unobvious limitations of *"segmenting the current requested bandwidth amounts into current newly- arrived bandwidth amounts and immediate previous unserved*

bandwidth amounts associated with the multiple streams of the multiple entities; assigning bandwidth units to the immediate previous unserved bandwidth amounts; detecting if available bandwidth units have been consumed in the assigning; and if available bandwidth units have not been consumed in the assigning, assigning the available bandwidth units to the current newly-arrived bandwidth amounts according to current reserved bandwidth amounts for the multiple streams of the multiple entities based on a smoothing factor," structurally and functionally interconnected with other limitations in a manner as recited in claims 24-30.

The prior art of record, considered individually or in combination and in view of the Applicants' outstanding response filed 08/29/08, fails to fairly show or suggest the claimed invention, comprising, among other limitations, novel and unobvious limitations of "*determining respective current allocated bandwidth amounts for the respective streams based on the ascertained respective immediate previous unserved bandwidth amounts; and updating reserved bandwidth amounts of the respective streams using weighted averages of current requested bandwidth amount, the ascertained respective immediate previous unserved bandwidth amounts, and previous reserved bandwidth amounts of the respective streams,*" structurally and functionally interconnected with other limitations in a manner as recited in claim 37.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
